OBJECTIVE

B.Tech graduate in Computer Science and Engineering (Data Science & AI) with hands-on experience in MIS operations and a foundation in Python and data handling. Interested in data cleaning, reporting, and analyzing datasets to generate meaningful insights. Seeking an entry-level Data Analyst role to apply analytical and problem-solving skills.

TECHNICAL EXPERIENCE & INTERNSHIPS

Programming Intern - *Code Alpha* | *Apr 2025 – Jul 2025* | *link*
Designed a full-stack Java applications including an **Employee Leave Management System**, **Word Counter**, and **Hotel Review System**. Gained hands-on experience with Java Swing for GUI, Firebase and MySQL for backend, and applied core OOP principles. Strengthened skills in building real-world, user-centric desktop applications.

PROJECTS

Bank Management System (Python) | link
I built a basic Bank Management System in Python using JSON for storing data. Through this project, I practiced Python fundamentals, functions, data handling, and implementing real-world banking operations.

File Handling Project (Python)| link
I created a Python project to practice file handling operations such as reading, writing, and appending data. Working on this project helped me understand file I/O, different file modes, data storage, and handling files efficiently using Python.

TECHNICAL SKILLS

Excel: IF, SUMIFS, COUNTIFS, VLOOKUP/XLOOKUP, Pivot Tables, Charts
Data Analysis: Data Cleaning, Data Validation, Data Summarization, Exploratory Data Analysis
SQL: MySQL, SELECT, WHERE, GROUP BY, JOINs, Aggregate Functions
Programming: Python, Pandas.
Visualization: Power BI
Tools: Google Sheets, Jupyter Notebook, Git/GitHub

ACADEMIC QUALIFICATION

Shri Ramswaroop Memorial University — Sep 2022 –May 2026
B. Tech in Computer Science and Engineering, Specialization in DS+AI — CGPA: 7/10

Rahmat Public Inter College
Class XII — 78.6%
Class X — 88.5%

SOFT SKILLS

Leadership, Fast Learner, Problem Solving, Analytical Thinking, Cross-functional Collaboration, Adaptability, Time Management, Agile Development.

CERTIFICATION AND ACHIEVEMENTS

- Data Science & Artificial Intelligence
- Career Essentials in Software Development
- Artificial Intelligence Fundamentals
- Introduction to AI in Analytics
- Deloitte Data Analytics Job Simulation
